

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## PREFACE.

THE thirteen parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision, and in some cases the tables have been entirely recast. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position would be gladly received.

The following pages contain chiefly matter in a tabular form, and should therefore be read in conjunction with the "Wealth and Progress of New South Wales," an annual publication, based for the most part on the figures found in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

## No. 4.—Area, Dwellings, Population, and Rates of Municipalities.

**Municipal Year.**—The municipal year of the City of Sydney begins on the 1st January; in all other cases it begins the first Tuesday in February.

**Borough and Municipal District.**—The maximum area which may be incorporated as a municipal district square miles, with a population of not less than 500. To entitle a district to incorporation as a borough, it must have a minimum population of 1,000 within an area of not more than 9 square miles.

**Municipal Rates.**—Municipal rates are levied on nine-tenths of the annual value of improved property, and per cent. of the capital value of unimproved land. In boroughs and municipal districts they are struck yearly; in the City of Sydney, from time to time, as may be decided. In the city the general rate, which has stood at 16d. since 1891, covers expenditure; in the other municipalities the general rate cannot exceed 12d., but special rates may bring the total up in the £. and an additional rate may be levied for water supply when the works have been constructed under the City Towns Water and Sewerage Acts.

**Sewerage System.**—No sewerage system has yet been constructed under the Country Towns Water Supply Sewerage Acts; and the metropolitan system is the only one existing in the Colony. The Board is steadily extending its system to those suburban municipalities where no service exists, and taking over the works which have been constructed by the local councils.

\* Includes collections at Wollongong for six months.

† Includes collections on account of private wharfs for twelve months.

**Pilotage Rates.**—Ships of war, cable-laying vessels, whalers, and pleasure yachts are exempt from pilotage. The Navigation Acts Amendment Act of 1896 fixes the following rates for other vessels:—(a) Upon arrival or departure of a ship in ballast, 1d. per ton; (b) 1d. per ton on arrival for refitting or docking or for obtaining coal for use of a ship; (c) 2d. per ton upon departure; (d) a ship compelled to enter port through stress of weather, for repairs, or to receive cargo in provisions or being in distress, is charged 1d. per ton on arrival or departure; (e) ships under other circumstances upon arrival or departure, are charged 2d. per ton. Vessels under provisions of (b) and (c) are not required to pay half-light rates. A minimum pilotage charge of £2 10s. is made upon arrival and also on departure of vessels not at the ports of Sydney and Newcastle, and £1 5s. at other coastal ports. The maximum rate in each instance is £20.

**Harbour and Light Rates.**—Every registered vessel is subject to a half-yearly rate of 4d. per ton on tonnage. Ships of war, cable-laying vessels, whalers, and pleasure yachts, and vessels entering or departing under provisions of (b) and (c), as shown in pilotage rates, are exempt from these dues.

**Removal Dues.**—Whenever the master of any ship shall be desirous of removing from one place of moorage in a port to another, the Harbour-master must be notified and permission obtained for such removal. If by the Harbour-master certain fees, ranging from £1 for any ship not exceeding 300 tons to £2 10s. for those not exceeding 1,000 tons, and an additional £1 for every 500 tons or part thereof in excess of 1,000 tons. The maximum fee is £4 10s.

**Tonnage Rates.** amounting to one farthing per registered ton per diem are levied on all vessels fully laden or half-laden on those partly laden discharging at the wharfs; vessels loading of 240 tons register and above are to a rate of one halfpenny per ton per diem for the first twenty-five days, after which time 1d. per ton per diem is imposed; for small vessels and lighters a fixed rate of ten shillings for each day is imposed. For steamers the rate is levied on the gross tonnage measurement. During a certain period, known as "Free Lay Days," vessels discharge exempt from tonnage rates. The number of "Free Lay Days" is regulated by the tonnage of the vessel, and the amount of cargo carried. The rents received from Government wharfs, leased to private companies, are accepted in lieu of rates, the collections of which on this account appear small.

**Wharfage Rates.**—All goods landed are subject to "Inward Wharfage Rates," and goods shipped to "Outward Wharfage Rates," the latter being one-half the former. Goods arriving from Australasian Colonies or Pacific Islands landed at wharfs and "Entered" for Transhipment are exempt from wharfage rates. In some cases the Government wharfs are leased to private companies, and the rent of the wharf is accepted in lieu of tonnage rates, but wharfage is collected, as in the case of ordinary wharfs.

**Ports at which Wharfage and Tonnage Rates are levied.**—Both classes of rates are collected at Sydney Harbour, Woolgoolga, Byron Bay, and Wollongong. At Newcastle Tonnage Rates only are imposed, as Wharfage Rates were abolished on the 1st June, 1882, under the authority of the "Wharfage and Tonnage Rates Act, 1880." The rates at Newcastle are an item of Customs Revenue; the Wharfage and Tonnage Rates collected at Sydney and other ports are paid into the Treasury, and included under the head of Miscellaneous Receipts of General Revenue. At no other ports are rates of either class collected by the Government. The collection of Wharfage Rates at Woolgoolga was discontinued from 1st April, 1896, and since the 1st July, 1896, the wharf at Byron Bay has been leased to Trusts.

**Steamer Certificates.**—Passenger certificates have to be renewed at least every six months. The half-yearly fee for vessels not exceeding 50 tons are £1; over 50 and under 100, £2; over 100 and not exceeding 300 tons, £3; additional £1 for every additional 300 tons or part thereof. No certificates have been issued in New South Wales for passenger steamers trading on the river Murray.

**Ballast and Coal Lighters.**—Under section 122 of the Navigation Act of 1871 (35 Vic. No. 7) all lighters for the purpose of carrying ballast or coal must be licensed by the Marine Board of New South Wales. A fee of £1 is levied for each lighter, but no limit is fixed for the term of license.

## No. 37.—Tug Service, 1886.

Subsidised Steam Tug Service.—The Marine Board of New South Wales subsidises tugs at the places mentioned in the following table for the purpose of towing vessels in and out of port or river. The tugs are not allowed to leave the station without the sanction of the Board, and the master must endeavour to be in the vicinity when vessels are ready for at and in cases where vessels are in actual danger he must promptly render assistance. The maximum rate for ordinary towing is fixed at 4d. per registered ton with a minimum of £1 10s. Disputes arising with respect to special services must be settled by arbitration. The masters of tugs are required to take pilots off to vessels signalling for services of a pilot.

### No. 38.—Wrecks and Disasters to Shipping within the Jurisdiction of New South Wales, 1896.

**Inquiries by Marine Board.**—During 1896 nineteen inquiries were held, of which fourteen were heard by the Marine Board at Sydney, and five by the local Marine Board at Newcastle. Eleven masters were examined for loss of vessels, five of whom were exonerated, four had their certificates suspended for three months, one was reprimanded and cautioned, and in one case no evidence was adduced on which to found a charge of default. Of the inquiries, three relating to collisions were held, one master was censured, and three had their certificates suspended. The two inquiries into the stranding of vessels resulted in the mate's certificate of one vessel being suspended and the dismission of the other one. The Board could not come to a decision as to who was blameworthy in the burning of the boiler of a steam-ship. Two inquiries were held into the supposed loss of missing ships.

## No. 4.—Trade Seaward and Overland, 1887-96.

**Adjustment of Returns.**—From 1887 to 1893 the figures now given do not agree with those originally published in the "Register" for the years in question. The differences have been caused by the adjustment of the returns for gold and live stock. As New South Wales is a gold-producing country, it has been adopted as a rule to treat as produce any excess of export over import of gold, and when the import is the greater to class as foreign produce the export. In the case of live stock the returns published by the Chief Inspector of Stock, Queensland, of the border between the two colonies, have been accepted in lieu of those of the New South Wales Customs Department.

## No. 11.—Trade with each Country during 1896.

The Collector of Customs has authority under various Acts to administer affairs relating to Customs; the body of however, is contained in the "Customs Regulation Act of 1879" (42 Vic. No. 19) and the "Customs Duties Act of Vic. No. 15). Under the provisions of the first-mentioned Act a Board of Commissioners of Customs is established, consists of three persons. The functions of the Board are to hear and determine disputes between officers of the and the general public in matters relating to the Department. The decisions, are, however, subject to disallowance over and the rulings of the Supreme Court and Privy Council. In the exercise of their duties the Commissioners see to frame rules, orders, and forms for the general conduct of business in relation to matters submitted to them, and administrative powers whatever in the working of the Customs Department.

**Transshipments.**—Entries under this head contain only the description of the packages, as particulars relating to and value are not obtained. Transshipment transactions are chiefly confined to the port of Sydney. Goods sent at the ports of New South Wales are not included in the Import or Export returns. It is the practice, however, Colonies to enter such articles as imports from or exports to New South Wales. To this practice is due the difference between the returns of New South Wales, as given in the Statistical Register, and those published by the other in respect to many articles, such as fruit and minerals, in which a considerable transshipment trade is done between New South Wales and the other Australasian Colonies.

**Domestic Exports.**—Exported articles which were partly or entirely manufactured from imported materials have been as domestic produce.

No. 13.—Imports into New South Wales during 1896.

**Section of Trade Returns.**—The quantities and values of the imports and exports are in nearly every instance furnished by importers and exporters or their authorised agents. In the case of the imports, the particulars are under declaration but this procedure is not generally adopted for the export returns, although the Collector of has power to demand particulars of goods, under declaration if necessary. No official valuations are made, but are, nevertheless, checked and amended if necessary by competent officials of the Customs Department.

**Valuation of Imports.**—*Articles Free or subject to Specific Duties.*—The values given are understood to represent as at the port of shipment, with the cost of freight, insurance, packing, and portage added. *Articles subject to Specific Duties.*—The values given are supposed to represent the market values of the goods (less cost of packing and the time and place of exportation, in addition to 10 per cent. thereon. No *ad valorem* duties were in force in the year 1896. The values of goods, both *specific* and *ad valorem*, are in every instance *exclusive of Duty*.

**Post Office—Parcels, &c.**—The quantities and values of goods transmitted through the Post Office have been included in the returns.

**Proof Spirit.**—Alcohol of the specific gravity of 0·92 at 60° Fahr. is proof spirit. The standard of proof spirit by which all mixtures of alcohol and water are judged contains 57·27 per cent. by volume, and 49·50 by weight, of alcohol. Spirits other than bitters, essences, sarsaparilla, tinctures, &c., are subject to a duty of 14s. per gallon of proof spirit; a proportionate reduction in the duty is allowed on spirits to 16·5 under proof, but on spirits of less strength the duty is enforced as at that strength. The returns of spirits given in the general imports and exports are stated according to measure, whereas the quantities shown in the Table of Revenue collected by the Customs Department are gallons of proof spirit.

\* The export of Wool during the Calendar Year does not represent the clip of the Wool Season; the outward trade during the year January to December includes portions of the clips of two Wool Seasons, the commercial wool year ending on the 30th June. Shearing generally takes place between the months of May and November.

# No. 17.—Goods Reintroduced into New South Wales via Victoria and South Australia, 1896.

(Not included in Returns of General Imports and Exports.)

**Reintroduction Certificates.**—Goods forwarded from coastal ports (Sydney and Newcastle), or from inland stations in the Riverina District or at Broken Hill for reintroduction into New South Wales, via Victoria or South Australia, must be covered by a "Reintroduction Certificate" issued by the Customs authorities, in order to be exempt from payment of import duties upon readmission into the Colony. The list below includes a large number of "Free" goods (N.S.W.) which have been reintroduced under Certificate, as, owing to the dissimilarity of the Tariffs, import duty would have been charged by other colonies, unless the goods were protected by Certificate.

Certificates are granted for goods to be reintroduced within one month from the date of issue, after which time the goods are subject to full import duty. The general Imports returns given in Table No. 13 (pages 119 to 167) and Exports returns Table No. 14 (pages 168 to 292) do not include the trade under Reintroduction Certificates.

No. 30.—Goods on which Drawback was obtained, 1896.

**Drawback of Customs Duty.**—A drawback of the full duty paid on importation is allowed on goods if exported in original packages as imported, provided that the Collector of Customs is satisfied that in all respects the goods are in the same condition and of the same value as when they were entered for duty on importation. Drawbacks of import duties are allowed on ale, beer, wine, opium, medicines, toilet preparations containing spirit, but not on intoxicating spirits, tobacco, cigars, cigarettes, tinctures, perfumed spirits, Florida water, and bay rum. There is no limit to the period in which Drawbacks may be obtained, but by a memorandum of the Collector of Customs, Drawback was not allowed after 30th April, 1896, on Open Stock of articles the duties on which were repealed on the 1st January, 1896. Drawback of Excise duty is allowed on beer only.

## No. 16.—Particulars relating to Conditional Purchases and Homestead Selections.

Land available for Conditional Purchase.—Lands held under the following forms of lease are not available for conditional purchase:—pastoral, homestead, conditional, scrub, snow-land, special, inferior, and artesian well, residential, mineral, and auriferous; also, the area in the Western Division is not available for ordinary conditional purchase. The only lands that can be conditionally purchased are the unoccupied lands outside reservations and areas under occupation license and annual lease in the Eastern and Central Divisions, and lands under conditional lease, if not within reserves, may be applied for as conditional purchases by the holders thereof.

Divisions in which Land may be acquired.	Authority.	Limit of Area.	Price.	Remarks.
CONDITIONAL PURCHASES—Ordinary Residential.				
Eastern ..	Acts 1884 and 1889 and amending Acts passed subsequent to the Act of 1884, including Act of 1895.	Maximum area, 640 acres; minimum area, 40 acres. The maximum can, however, be increased to 1,280 acres by converting a conditional lease into an additional conditional purchase.	£1 per acre—2s. per acre deposit, payable on making the application, and after an interval of three years, during which period no payment is required and interest is not charged, the balance, together with interest at the rate of 4 per cent. per annum, is payable by annual instalments of 1s. per acre. The whole of the balance may be paid at selector's option, if he has obtained a certificate of conformity, after a continuous residence of five years from date of application in the case of selections made prior to the Act of 1895, or after ten years if subsequent thereto. The survey fee, according to prescribed scale, must be paid at the date of selection.	The holder of an ordinary residential conditional purchase is entitled to a conditional lease up to three times the area of his other conditional purchase, provided that the total area, including the portion leased, does not exceed 1,280 acres. Under section 29 of the Act of 1895 the term of residence in connection with a new conditional purchase or a new additional conditional purchase in virtue of a conditional purchase under the repealed Acts or even under the Act of 1884 is increased to ten years from the date of application. Exceptions as to residence are detailed in section 30 of the Act of 1895.
Central ..	do ..	Maximum area, 2,560 acres; minimum area, 40 acres.	do ..	The same provisions regarding a conditional lease as in the Eastern Division, excepting that the total maximum area is 2,560 acres.
CONDITIONAL PURCHASES—Ordinary Non-Residential.				
Eastern, Central.	Acts 1884 and 1889 and amending Acts passed subsequent to the Act of 1884.	Maximum area, 320 acres; minimum area, 40 acres.	The price per acre, deposit, and all subsequent instalments are double those prescribed for ordinary residential conditional purchases. The survey fee is the same as that for ordinary residential conditional purchases.	A non-residential conditional purchase does not entitle the holder to a conditional lease, and debars him from selecting at any future time.
CONDITIONAL PURCHASES—Special Areas outside Population or Suburban boundaries.				
Eastern ..	Acts of 1884 and 1889.	The minimum and maximum areas are specified in each proclamation, but the maximum area cannot exceed 320 acres.	Thirty shillings per acre and upwards, the price being fixed by proclamation in the <i>Government Gazette</i> . One-tenth of the purchase money is payable on application, one-twentieth at the expiration of three years, and a similar amount each year subsequently until the balance of the purchase money, with interest at 4 per cent., has been paid.	This system was first introduced under the Act of 1884. The conditions to be fulfilled are similar to those of the ordinary conditional purchase. No conditional leases can be taken up in special areas, and no conditional lease of ordinary Crown Lands can be acquired by virtue of a conditional purchase within a special area.
Central ..	do ..	The minimum and maximum areas are specified in each proclamation, but the maximum area cannot exceed 640 acres.	do ..	The same provisions as in the Eastern Division, with the exception that a conditional lease of ordinary land can be taken up by virtue of a conditional purchase within a special area.
Western ..	do ..	do ..		The same provisions as in the Eastern Division.
CONDITIONAL PURCHASES—Special Areas within Population or Suburban boundaries.				
Eastern, Central, Western.	Act of 1889 ..	Maximum and minimum areas are specified in the proclamations.	The conditions of payment are specified in the proclamations.	Conditions as to residence, fencing, and other improvements are specified in the proclamations. Any lands within population or suburban boundaries which have been proclaimed special areas are available for special area conditional purchase.

## HOMESTEAD SELECTIONS.

Division.	Authority.	Limit of Area.	Conditions.
Eastern, Central, Western.	Act of 1895	Fixed according to capabilities of land for the maintenance of one family, but no selection must exceed 1,280 ac.	The applicant may take possession immediately after lodging his application, but shall commence to reside on the selection within three months after the confirmation of the application, and thereafter continue for the first five years. The annual rent shall equal $1\frac{1}{2}$ per cent. of the capital value during the first five years. At the expiration of that period a grant is issued, transferring the land in perpetuity to the lessee, on the payment annually of a rent equal to $2\frac{1}{2}$ per cent. of the capital value. Provision is made for a revaluation of the selection by the Government every ten years.
An applicant may appoint a deputy to fulfil the residential conditions during the five years prior to the issue of the grant, subject to the approval of the Local Land Board, but the applicant will be required to pay an annual rent equal to $3\frac{1}{2}$ per cent. on the capital value during the before-mentioned period and effect greater improvements, but on issue of grant his residence on the selection must be continuous for such period, not less than 7 months in each year, as may be determined by the Governor.

**Decisions of Supreme Court.**—During 1896 the Land Appeal Court was requested to state special cases for the decision of the Supreme Court in eleven instances, two of which were not proceeded with. In respect of three cases the ruling of the Land Appeal Court was confirmed, in five it was reversed, and in the remaining case the Supreme Court ruled that it had no jurisdiction.

## No. 30.—Particulars relating to Occupation.

**Forms of Lease under Land Acts.**—Prior to the 1884 Act the only forms of lease granted were Pastoral, Annual, Special, and Pre-emptive. Under the 1884 Act provision was made for each of these forms of lease to be continued except the pre-emptive, which was abolished. Under the same Act, Occupation Licenses, Conditional and Homestead Leases were established. The supplementary Act of 1889 provided for five additional forms of Lease, which were as follows, viz.:—Scrub, Snow Land, Artesian Well, Residential, and Inferior Land, and under the Act of 1895 two other forms of Lease were added, viz.:—Settlement Leases for Agriculture and Grazing and Improvement Leases.

### No. 39.—Court of Claims.

Prior to 1831 all grants of public land were made upon the sole authority of the Governor. After that date all public lands were directed to be sold. The so-called "grants" issued prior to 1831 were only promises of grants, giving authority to take possession of the land, but not conferring any title in law. In 1833 an Act was passed (4 Wm. IV No. 9) appointing and empowering three or more Commissioners to hear and determine claims to grants of land. This Act was limited to two years' operation, but in 1835 was made perpetual by Act 5 Will. IV No. 21. No claims were brought before the Court during 1896.

The deed in respect of an area of 10 acres 1 rood 6 perches, the claim for which was dealt with in a previous year, was, however, issued during 1896.

\* There are 46,083,504 acres held under occupation license and annual lease in the three Land Divisions, and 14,060,881 acres under pastoral lease in the Central Division. The last-mentioned leases terminated in 1895; but, in accordance with section 43 of the Act of 1890, renewals were granted for various short terms. Leases of the following areas will expire during the year mentioned:—

1904 .. .. .	54,345 "
Total .. .. .	13,850,471 acres.

Notwithstanding these renewals, however, the Act of 1895 provides for the withdrawal of half each leasehold to the requirements of settlement as they arise, compensation being allowed in the form of a further extension of lease to the other portion. The areas, the leases of which expire in 1902, 1903, and 1904, comprise the remainder of leasehold portions of which were withdrawn for settlement during 1896 under the provisions of section 3 of the Act of 1895.

\* Large holdings extending into several counties are returned in the county where the homestead is situated.

† This total of 117,135,695 acres is that obtained from the returns of holders of land. According to the Lands Department—see table 1, page 1—the total area of Crown Lands occupied on 31 December, 1896, was 126,307,790 acres. The latter figures are, however, in excess of the actual area leased—probably by not less than  $5\frac{1}{2}$  million acres—owing to the fact that portions of land held under one form of lease, and in respect to which application has been made for transfer to another form, appear under both forms pending consideration of the application. On the other hand as there are always a few returns which cannot be obtained from the landholders this accounts for a deficiency of about  $3\frac{1}{2}$  million acres in the table above.

## PART VI.—MANUFACTORIES AND WORKS.

The statistical returns for the year 1896 have been compiled on a new basis, in order to secure uniformity with Victoria. Formerly an establishment where no machinery is used was included in the returns if at least five hands were employed therein; but the minimum number of hands accepted in such factories has now been reduced to four. Also milliners, dressmakers, and tailors, not hitherto enumerated, are now included; but all blacksmiths, not coming under any specific heading, have been excluded.

In Table No. 1, the figures for 1896 are, for purposes of comparison, given on the basis of previous years; while Table No. 2 gives particulars of each class of industry on the old basis.

Tables Nos. 3 to 5, inclusive, have been compiled on the new basis. They show that, on this basis, 42,791 males and 6,264 females, or a total of 49,055 were employed in 1896.

### No. 1.—Number of Manufactories and Works, and Hands employed, 1887–96.

**Statistical Year.**—Previous to 1892 the statistical year ended March 31st; thus 1886-1887 refers to the year beginning on April 1st, 1886, and ending March 31st, 1887. For 1892 and subsequent years the statistical year coincides with the calendar year.

**Aborigines.**—The Aboriginal population was not included in the Census of 1861, while in 1871 and 1881 the wandering tribes were passed over, and only those who were civilized or in contact with Europeans were enumerated. It is probable that the total numbers for these years were, approximately—in 1861, 15,000; in 1871, 12,000; and in 1881, 10,000.

**Excess of Immigration.**—It is believed that not a few persons leave New South Wales without their departure being recorded; the figures given, therefore, are somewhat in excess of the truth.

**Chinese Immigration.**—Under Act. 52 Vic., No. 4, passed in the year 1888, no Chinese, unless exempted by the Act, allowed to enter New South Wales either by sea or land without the payment of a tax of £100 each. The exemptions—Chinese who are British subjects by birth, who have been naturalised in New South Wales, or those who arrive on a special mission under the authority of the British or Chinese Governments, and members of crews of vessels who land in the performance of their duties. Naturalisation of Chinese in New South Wales is now prohibited by the Act. Chinese naturalised in other Colonies are not entitled to the right of British citizenship in New South Wales.

(—) Denotes excess of Emigration.

**State-Assisted Immigration.**—General State-assisted immigration ceased in the year 1887, but those who arrived prior that system, and are still residing in New South Wales, may, under special regulations, send for their wives and families. The immigrants who arrived during 1896 were nominated in the Colony. The amount of passage money required to be paid by each person is graduated according to age, and ranges from £1 for children 3 years and under 14 to £15 for married sons over 40 years of age, and unmarried persons over 35 years of age. Reference may be made to records relating to arrival of immigrants since 1832, and copies of certificates of birth, &c., may be obtained by immigrants at the Chief Secretary's Department, Sydney.

**Naturalisation Act.**—The first Act empowering the Governor to grant letters of naturalisation in New South Wales was assented to in 1828 (9 Geo. IV, No. 6). The next important Act passed was 11 Vic., No. 39, as amended by 17 Vic., No. 8. This was repealed in 1876 in favour of the Act now in force (39 Vic., No. 19). An alien who has resided in New South Wales for a term of not less than five years may apply to the Governor to be naturalised. Should a certificate of naturalisation be granted, the applicant must take the oath of allegiance prescribed by the Act. The Chief Secretary is required to record all certificates of naturalisation, and to receive a fee of one pound for each certificate issued. The register of certificates of naturalisation that have been granted may be inspected upon payment of a fee of one shilling.

**Naturalisation of Chinese.**—A clause in the Chinese Immigrants Regulation and Restriction Act of 1861 (25 Vic., No. 3) provided that certificates of naturalisation should not be granted to Chinese. The Act was, however, repealed on the 20th November, 1867, but since the date of the passing of the Chinese Restriction and Regulation Act of 1883 (52 Vic., No. 4), no certificates of naturalisation can be issued to Chinese in New South Wales.

**Naturalisation Certificates.**—Certificates of naturalisation granted in other Colonies do not confer the right of British citizenship in New South Wales.

**Divorce.**—Under Act 55 Vic., No. 37, assented to 9th May, 1892, and 56 Vic., No. 36 (13th June, 1893), the grounds on which Divorce may be granted have been largely extended. This explanation accounts for the large yearly increase in the number of marriages dissolved in 1893 and each subsequent year. For full particulars of Divorce see Part "Law and Crime," and statistics in reference to Divorced persons published in the Report of the Registrar-General, "Vital Statistics."

**Re-marriages.**—The number of those persons who were divorced in New South Wales, and again married in the colony, cannot be separated in the above table, which shows the Re-marriages of persons who had been divorced either in New South Wales or elsewhere.

**Primary Schools.**—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools shall be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology."

**Compulsory Attendance.**—The Act makes it obligatory upon the parents or guardians of all children between the ages of 6 and 14 years (unless just cause of exemption can be shown), to cause such children to attend school for a period of not less than 70 days in each half-year. The minimum age for admission of pupils has been fixed at 5 years by a Ministerial Minute.

**Causes of Exemption.**—The causes of exemption defined by the Act are:—That the child is being regularly and efficiently instructed in some other manner; that from sickness or infirmity or from fear of infection or other unavoidable cause there is inability to attend; that there is no State School within 2 miles by the nearest road, or that the child has already been educated up to the standard of education required. Under this last clause, examinations for exemption certificates are held at the annual inspection of the schools.

**Public School Fees.**—The weekly fee is three-pence for each child up to four children of one family; for four or any larger number of the same family the charge is one shilling. Where inability to pay fees is shown payment is not enforced.

**Public School Cadet Corps.**—In connection with the State Schools, and inclusive of those attached to Roman Catholic Schools within the Metropolis, there were, at the end of 1896, 113 Cadet Corps, with an enrolment of 3,164 cadets. The corps previously known as Senior Cadets, and comprising infantry, cavalry, artillery, and ambulance corps, were transferred to the Military Department during 1893, and affiliated with certain of the partially-paid regiments. The amount expended for cadet purposes during 1896 was £3,139, as against £3,865 in 1895. No new corps were formed during the year.

**Penny Savings' Banks.**—These are established in connection with the State Schools. At the end of 1896, Savings' Banks were in operation at 639 schools. The estimated number of depositors was 37,500, and £6,671 was standing to their credit. Deposits as collected are placed in the Post Office Savings' Bank to the credit of the School Bank. As soon as the amount at the credit of an individual depositor reaches £1, a separate account is opened in the child's own name.

Collection of Returns in Electorates and Counties.—The particulars relating to private schools were formerly collected according to electorates; during 1833, 1891, 1895, and 1896, however, the returns were obtained in counties. The series of the former are liable to be varied by a change in the electoral law, while those of the counties are practically based on a permanent basis.

Counties.—Of the 141 counties into which New South Wales is divided, only in 70 are private schools in operation.

**Finance.**—The supervision of the financial affairs of the University are, subject to the direction and control of the Senate, entrusted to a Finance Committee consisting of the Chancellor, Vice-Chancellor, and four elected Fellows.

**"Challis" Fund.**—In 1880 the late Mr. J. H. Challis bequeathed his whole estate to the University, which, under the terms of the will, was transferred to that institution in September, 1880. The assets in Australia and England amounted to £268,224. The Senate has decided that the Fund shall be applied as permanent provision of income for educational uses. Through the agency of the Fund seven "Challis" Professorships and five "Challis" Lectureships have been established.

**Other Foundations.**—There are also the "Hovell" Lectureship, £6,000; the "Wentworth" Travelling Fellowship, now amounting to £1,904; and the Curatorship of the "Macleay" Museum, £6,000. In 1890 the University received a donation of £50,000 from Mr. P. N. Russell, to endow the Department of engineering.

**University Museums.**—The Museum of Antiquities, the "Macleay" Museum of Natural History, and the Museum of Normal and Morbid Anatomy, attached to the University, are accessible to the public under certain regulations.

These have all been created (on the initiation of the late Dr. Badham, when Professor of Classics) by private foundations, at a cost of £1,000 each, together with a margin in some cases to ensure prescribed annual awards amounting to £50. They are helped, on the part of the Senate, by an accompanying exemption from all lecture fees and the fee for matriculation. Women are eligible for not more than one half of the five bursaries, founded in 1881, by the late Mr. Thomas Walker, of Yarralla, Concord.

**Public School—University Bursaries.**—Ten other bursaries have been created by the Government in connection with the Public School system, but the University is not concerned in their award, although the Senate has conceded to the holders a similar exemption from fees. For information relating to these Bursaries, see note to Table No. 7.

**Establishment of Technical Education.**—Classes for Technical Education were first established at the Sydney Mechanics' School of Arts in 1865. The Working Men's College was started in 1873. In 1878 a sum of £2,000 was granted by Parliament for the organisation of the Technical College, and for five years the classes were carried on at the institution named. In 1883 a Board was appointed by Government to take over the management, but towards the end of 1889 the Board was dissolved, and the Technical Colleges were placed under the control of the Minister of Public Instruction. The new Technical College at Ultimo was opened to students in January, 1892.

**Technical Education Branch.**—The Technical Education Branch of the Department of Public Instruction comprises two distinct institutions—(1) The Sydney Technical College and its Branches; and (2) the Technological Museums. The Sydney Technical College and the Technological Museum adjoin, and the Branch Technical Schools at Bathurst, Goulburn, Newcastle, and West Maitland have also Branch Technological Museums connected. The two institutions are now under one administrative head. Instruction is given in classes at the various schools, and during 1896 five lectures on Agriculture were delivered, by request, in country districts, and sixty-three by the Travelling Lecturer in Geology in various mining centres.

**Technical Education in State Schools.**—During 1890 a workshop was established at Fort-street Model School, and later on, at the Boys' High School and other large schools in the metropolis and country. The pupils are taught the use of tools by instructors connected with the Technical College and branches. The course consists of carpentry, joinery, and other selected handicrafts. Examinations are held annually, and certificates issued to successful candidates.

**Enrolment.**—The total number of pupils enrolled was 7,119, as shown in the preceding page, as against 7,071 for 1895, but a number of students have joined more than one class; the number of individual students was 5,396, with an average attendance of 3,718.

**Classes.**—The total number of classes given above was the number in existence at each locality, and not the number of distinct subjects taught, which is 57.

**Technological Museum.**—This museum, situate in Harris-street, Ultimo, was established in 1879, and was first administered by a committee of management appointed by the trustees of the Australian Museum. It was taken over by the Department of Public Instruction on 1st January, 1890, and made an integral part of the Technical Education Branch. Special endeavours are being made to collect the raw products and samples, illustrative of the industries and manufactures of the Australian Colonies; and the museum contains a large number of native mineral and vegetable products, and a comprehensive series of specimens of wool. Over 50,000 exhibits in all have been acquired, both by purchase and gift.

**Australian Museum.**—The Australian Museum was founded in 1836. It was originally connected with the Botanical Gardens, and was located in a room in Macquarie-street, Sydney, but was afterwards removed to the Surveyor-General's Office, and again, in 1849, to its present site. Its affairs were managed by a committee until 1853, when the Museum was incorporated by Act of Parliament (17 Vic. No. 2). The Act provides for twelve official Trustees, one Crown Trustee, nominated by the Governor, and twelve elective Trustees. Provision was also made for a State endowment of £1,000 per annum, which is supplemented by annual Parliamentary appropriations as required. It is essentially a Museum of Natural History.

**National Art Gallery.**—The National Art Gallery of N.S.W. was first opened in June, 1876, in conjunction with the New South Wales Academy of Art, an institution established in April, 1871. It was reopened as a National Gallery on 22nd September, 1880, in temporary buildings in the Botanical Gardens, Sydney, and removed to present premises in the Outer Domain on 23rd December, 1885. The estimated value of the collection is now upwards of £100,000. The collection of water-colour drawings is considered to be the finest out of England.

**Art Students.**—Persons desirous of studying in the Art Gallery must make application, accompanied by a specimen of work. If satisfactory, a "permit" will be granted to the applicant, revocable at the pleasure of the Trustees. No picture shall be copied in its entirety without special permission, and such studies only shall be made as shall be approved by the Trustees. All studies must be stamped before being taken from the Art Gallery. Loan pictures are not to be copied without the permission of the owners. Since the year 1889, when permission was first granted, 248 art students have availed themselves of the opportunity of studying in the Art Gallery, 36 additional students having been registered during 1896.

**Loan Exhibitions of Pictures.**—The practice has now been established of loan exchanges between the National Art Galleries of Sydney, Melbourne, Adelaide, and Brisbane. The third interchanges with the National Galleries of Victoria and South Australia were effected in April, 1896. The first exchanges with the Queensland National Art Gallery were effected in November, 1896. Loan exhibitions of pictures from the National Art Gallery to country towns in New South Wales have also been initiated, interchangeable between Newcastle, Bathurst, and Goulburn.

**The Public Library of New South Wales.**—The "Free Public Library" was established on the 1st October, 1869, when the buildings and books of the "Australian Subscription Library" were purchased by the Government. During the years 1886-7 considerable additions were made to the premises, a large portion being entirely rebuilt. The new buildings were opened in April, 1890. In 1877 the operations of the Library were extended by a Lending Branch being attached. Under certain simple regulations books may be borrowed by individuals, country Libraries, Mechanics' Institutes, and Groups of Students in Country Districts, free of charge. The Newspaper Room, formerly attached to the Reference Library, was, in February, 1895, transferred to the Lending Branch. During 1895 the name "Free Public Library" was changed to "The Public Library of New South Wales."

**Whipping.**—Under the Criminal Law Amendment Act (46 Vic. No. 17) provision has been made for whipping as an additional punishment, chiefly for offences classed as wanton and unprovoked assaults and indecent exposure. The Court adjudicating must, however, consist of two or more Justices, one of whom shall be a Police or Stipendiary Magistrate. In the Metropolitan District the cases are decided before two Stipendiary Magistrates.

After a person is committed by Magistrates or Coroners, the depositions of the case are forwarded to the Clerk of the Peace, thence to the Crown Prosecutor of the district for an opinion ; the papers are then transmitted by the Clerk of the Peace to the Attorney-General, who determines whether a Bill shall be found.

It is to be understood that the figures quoted in the foregoing table need not necessarily agree with those set out in Table No. 15, inasmuch as cases committed from the Lower Courts at the close of 1895 were dealt with in Higher Courts during 1896, and similarly cases dealt with in the Lower Courts during the latter part of 1896 were not ready for disposition by the Higher Courts during that year.

**Higher Courts.**—*Central Criminal and Circuit Courts.*—Judges of the Supreme Court preside over the Central Criminal and the 15 Circuit Courts in different parts of the Colony. *The Courts of Quarter Sessions* are presided over by magistrates, who are also Judges of the District Courts. There are seven Chairmen, two of whom preside over the Metropolitan, Suburban, and Hunter Districts and one over each of the five remaining districts. Accused persons in each jurisdiction are tried by a jury of twelve.

**Jurisdiction.**—The Central Criminal and Circuit Courts, and Courts of Quarter Sessions, have co-ordinate jurisdiction excepting as regards capital charges which cannot be dealt with by Courts of Quarter Sessions.

\* The amounts set down in the above table as the value of prison labour have been reduced from those shown in previous issues of the Statistical Register, inasmuch as it was found that it had been the practice to allow a certain sum for unproductive services. As they are now presented, the figures only represent the labour of a productive character.

† The figures in respect of previous years adjusted.

**Trial Bay Prison and Breakwater.**—Prisoners under sentences to penal servitude, or to hard labour on the roads and public works, or to imprisonment with hard labour, become eligible for employment upon the public works at Trial Bay Prison under the following conditions, viz.:—Prisoners under sentences from three to five years, who have not been punished for misconduct within the previous six months, and favourably recommended by the Gaolers, at a period twelve months before they would become eligible for discharge under the ordinary remission regulations, and in anticipation of such discharge; in sentences of five to ten years similarly at a period of two years anterior to discharge; in sentences of ten years and upwards at a period of two years and six months anterior to discharge. The Breakwater now under construction is being supervised by Officers of the Public Works Department, and the prisoners engaged in work, who are entirely under the control of the Comptroller-General of Prisons, receive small monetary remuneration, as well as being supplied with rations and clothing which is not of the prison pattern.

This table has been adjusted for previous years, and is based on the average obtained for every year by taking the mean of the numbers in confinement at the end of that year and at the end of the preceding year. It has been found practicable to supply the absolute figures for 1896. The daily average number of prisoners confined during 1896 was 2,212 males and 230 females, a total of 2,442 persons. The death-rate per thousand is, therefore, for males, 12'65; for females, 8'69; and a total of 12'28.

First Offenders Probation Act of 1894 (57 Vic. No. 23).—Under the provisions of this Act any person, convicted on the first offence, may be set at liberty on certain conditions instead of being sent to prison. Although the sentence is passed in the usual form, the Court has power to suspend its execution, upon the offender entering into a recognizance, with or without sureties, for his good behaviour, for a period of not less than twelve months. The offender is examined for the purpose of future identification, and must report himself to the police at least once in every three months. Should he fail to do so, or seriously misconduct himself during the period of probation, he is liable to be arrested, the recognizance forfeited, and committed to prison to complete his sentence. If, however, his conduct shall have been satisfactory, he shall be discharged from the sentence, and the conviction for which it was imposed shall not be brought against him on any subsequent occasion.

Breaches of the Act.—During 1896 no offenders, who were at liberty under the provisions of the First Offenders Probation Act, had their recognizances forfeited.

\* Particulars of Offences for which prisoners were convicted at Magistrates' Courts, and liberated under the provisions of the First Offenders Probation Act, are not available for 1895.

Adjudications and Orders are, as a rule, classified as coming within Civil Jurisdiction. There are, however, Adjudications and Orders which come within the range of Quasi-Criminal Jurisdiction, and are treated accordingly. The figures given above include all Adjudications and Orders, as in no instance can the defendant be peremptorily imprisoned, a second proceeding must be taken before this can be effected.

**Probate and Administration.**—By the Probate Act of 1890 (54 Vic. No. 25), the jurisdiction previously vested in the Primary Judge in Equity was transferred to the Supreme Court and its Probate Jurisdiction, and such Judge as might be appointed Probate Judge. The duties performed by the Prothonotary and Ecclesiastical Clerk were at the same time transferred to the Registrar of Probates.

**Gross and Net Value of Estates.**—The figures from the Probate Court and Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

**Estates of the Value of £1,000—How dealt with.**—Prior to the passing of the existing Act, all applications for probate and letters of administration (except where the gross amount of the estate did not exceed £100) were made in open Court, and also applications to pass accounts of executors or administrators. Under the present Act the Registrar grants probate and letters of administration where the estate does not exceed £1,000 in value, it being only necessary to apply in open Court in cases beyond that amount. It is now also only necessary to apply in Court for the allowance of executors and administrators' accounts where commission is applied for, or in case of appeal from the decision of the Registrar.

**Small Estates—Value £300 and under.**—In pursuance of the provisions of the "Probate Act of 1890 Amendment Act" (56 Vic. No. 30), probate and letters of administration may be granted without the intervention of a solicitor in estates sworn not to exceed £300.

\* Grounds for which Divorces were granted, see Table 73.

**First year of Divorce Act.**—Prior to the passing of the Matrimonial Causes Act of 1873 (36 Vic. No. 9), the Supreme Court of N.S.W. had no jurisdiction in divorce. The existing Act (55 Vic. No. 37) was assented to on the 9th May, 1892, but did not come into force, owing to an informality, till the 6th August. During 1893 an amending Act (56 Vic. No. 36) was attached.

**Jurisdiction.**—In addition to granting Decrees for Dissolution of Marriage, for Judicial Separation, for Nullity of Marriage, for Restitution of Conjugal Rights, and for Jactitation of Marriage (no petitions for which have as yet been filed in this Colony), the Court also deals with questions of alimony, custody, maintenance, and education of children, damages against an adulterer, and settlements of property.

A suit *in forma pauperis* cannot be proceeded with without a Judge's order, and to obtain such it is necessary to produce the certificate of the Registrar and an affidavit of the party applying as to means of living, and, where a suit is by wife, the means of her husband, and that he or she (after the payment of just debts) is not worth £25, except wearing apparel and household furniture.

**Decrees *Nisi*.**—After a Decree *Nisi* has been granted, it can be made absolute at any time subsequent to the date fixed by the Court for that purpose. Neither party can re-marry until after fourteen days from the date of the Decree *Nisi* having been made absolute.

**Grounds for Divorce.**—The chief grounds for divorce under the old Act were adultery since marriage on the part of the wife, and adultery and cruelty on the part of the husband. In addition to the foregoing causes, petitions for divorce can now be granted on any one of the following grounds:—

**Husband v. Wife.**—Desertion for not less than three years; habitual drunkenness for a similar period; being imprisoned under a sentence of three years or upwards; attempt to murder or inflict grievous bodily harm, or repeated assaults on him within one year previously.

**Wife v. Husband.**—Adultery, provided that at the time of the institution of the suit the husband is domiciled in New South Wales; desertion for not less than three years; habitual drunkenness for the same period; being imprisoned for three years or upwards, or having within five years undergone various sentences amounting in all to not less than three years; attempt to murder, or assault with intent to inflict grievous bodily harm, or repeated assaults within one year previously.

**Period of Domicile.**—To entitle either party to seek relief on any one of these grounds he or she must have been domiciled in the colony at the time of instituting the suit for three years and upwards, and should not have resorted to the colony for the purpose of the suit. When a wife seeks for a decree on the ground of three years desertion, if she was domiciled in New South Wales when the desertion commenced, she shall not be deemed to have lost her domicile by reason of her husband having thereafter acquired a foreign domicile.

The Assets and Liabilities are "according to Bankrupts' Schedules." The assets vary in many instances considerably from the statements showing amounts realised; the original figures as to liabilities, however, represent fairly the actual indebtedness.

Petitions withdrawn and refused.—Petitions withdrawn apply wholly to Creditors' petitions withdrawn in consequence of payment of amount of claims, and the petitions refused represent those cases in which the Judge or Registrar is not satisfied that acts of Bankruptcy alleged have been committed.

Official Assignees.—Official Assignees are appointed by the Executive Council when, in the opinion of the Judge, an addition to their number is required. On the 31st December, 1896, three held office. In each estate the Official Assignee receives 2½ per cent. commission on the amount realised, and 2½ per cent. on the amount of dividends declared. The Judge may also grant special remuneration. Each Official Assignee is obliged under the 94th section of the Act to furnish the Registrar with quarterly statements showing the transactions in each estate.

\* Bankruptcy Estates Account.—Each Official Assignee pays all moneys received by him to the Registrar in Bankruptcy who places the amount to the credit of the "Bankruptcy Estates Account," from which all charges (other than peremptory, such as auction charges, rent, &c.), fees, and dividends are met.

**Criminal and Quasi-Criminal Appeals.**—Appeal from Magistrates' Courts to Quarter Sessions is a remedy for bringing the Orders and Convictions of Justices to the review of Quarter Sessions. When an appeal is given generally, the Court is Judge of law as well as fact. The right of appeal exists only when given by express enactments. When an appeal is allowed by Statute, it is usually upon certain conditions, either that a notice be given to the Justice whose act is appealed from, and recognizances entered into to prosecute the appeal, or a deposit be made of the amount of the penalty and costs.

Although conveyances of land from the Crown are always registered under the Real Property Act, the payment of the Stamp Duty, which is collected by the Registrar-General, cannot be enforced until the application for deeds is made.

**Acts under which Registered.**—Mortgages on Real Estate are registered either under the Deeds Registration Act of 1843 (7 Vic. No. 16), or the Real Property (Torrens) Act of 1862 (26 Vic. No. 9.)

**Amount of Consideration incomplete.**—In many instances the amounts lent upon mortgage by banks are not stated, but simply the words "valuable consideration" or "cash credit" inserted in the deeds. As this occurs frequently when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the head of "mortgages" are incomplete. It must be borne in mind, therefore, that the "Amount of Consideration" stated applies only to cases in which the specific amounts are stated in the deeds, whether the amounts be the sums actually advanced or not.

**The Discharges do not include foreclosures,** which, if not formally registered as discharges, are nevertheless mortgages cancelled. The returns of discharges are therefore incomplete, and the discrepancy between the mortgages contracted and discharged is largely due to this cause.

Sums Secured both by Lien on Wool and Mortgage of Sheep.—When any sum has been secured, both by lien on the wool and by mortgage of the sheep, the amount is included under the head of mortgages only—thus in 1896, the gross amount lent on liens was £1,397,296; but from this has to be deducted the sum of £255,347, secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £1,341,949.

\*Discharges and Foreclosures.—It is not compulsory to register discharges; consequently no records exist of Sale terminated voluntarily, or by seizure with Judge's order to discharge. The large discrepancy between the "Filed" and "Satisfied" is accounted for by this fact.

All Mortgages on personalty other than Wool, Live Stock, Growing Crops, Ships, and Shipping Appliances, are entered at the Supreme Court under the "Bills of Sale Act of 1855."

For particulars of Mortgages on Ships and Shipping Appliances, see Part "Shipping."

**The Copyright Act** (42 Vic., No. 20) was passed in May, 1879, and became law on the 1st July following. Under International Copyright Act, 1886 (49 and 50 Vic., clause 33), and the Orders in Council thereunder, the greater part of body of Imperial Copyright law applicable to literary and artistic works together with the Copyright Convention of Berne became reciprocally applicable to Great Britain and the countries that are parties to the Convention, namely—Great Britain with her Colonies and Possessions, France and her Colonies (including Algiers), Germany, Italy, Spain with her Colonies, Switzerland, Luxembourg, Monaco, Hayti, Belgium, Montenegro, and Tunis; consequently, it is now possible for Colonial Copyright works to receive International protection within the limitations prescribed by law. The same Act places Colonial Copyright in literary works upon the same footing as Imperial Copyright, that is to say, a work first published in a colony by registration in such colony obtain protection throughout the British dominions. The registrations effected under Act up to the end of 1896 amounted in number to 2,258, receipts to £710, and disbursements (salaries) to £5,900.

**Duration of Copyright.**—Books are protected for the natural life of the author and for 7 years after his death, or 42 years from first publication, whichever may be the longer period; paintings, drawings, sculpture, and engravings, 40 years; photographs, 3 years; articles composed wholly or chiefly of metal, wood, stone, cement, glass, earthenware, or bone, and similar substances, 3 years; paperhangings, carpets, oilcloths, and all kinds of textile and woven articles, 2 years. To obtain the benefits of the Act in reference to designs, every article must bear the word "Registered," together with name of the proprietor and the date of registration.

### No. 15.—Causes of Insanity of Patients Admitted to State Hospitals for the Insane, and Licensed Houses, 1895-96.

**Causes of Insanity.**—These "Causes" are taken from the statements in the papers received with the Patients' admission, and are verified or corrected as far as possible by the Medical Officers.

**Number of Causes, &c.—Number of Patients.**—The "predisposing" and "exciting" causes are both enumerated in all cases where the predominating causes could not be distinguished, so that the aggregate of the totals for each of the years exceeds the total number of patients yearly admitted. During 1896 the number of patients admitted and readmitted was 740, while the causes were 846.

## No. 2.—Receipts of Sydney Branch, Royal Mint, 1855-96.

**Branches of Royal Mint.**—The Sydney and Melbourne Branches of the Royal Mint are the only institutions present in existence in the British Possessions, the Mints at Calcutta and Bombay being established on a different basis, but a branch will shortly be in operation at Perth, W.A. The Sydney Branch was opened on 14th May, 1855, and that at Melbourne on 12th June, 1872. Gold only is coined in the Branch Mints, the silver and bronze coin required for circulation in the Australasian Colonies being obtained from the London Mint. The expenditure of the Colonial establishments is borne by the respective Governments, the amount granted annually to the Sydney Mint by New South Wales being £15,000; this amount, however, is refunded to the Government under the head of Mint Receipts.

\* Loss on half-year's transactions, £53,506, which has been written off the old Reserve Fund. † To Assets Special Reserve Account, not included in balance-sheet. ‡ To Contingency Account. § The figures shown for the Bank of New Zealand are for twelve months, with the exception of the dividend, which includes three months' dividend on preference shares to 31st March, 1896. The amount shown as transferred to Reserve Fund (£35,709) was paid to the Assets Realisation Board, and the amount carried forward will also be paid to the same Board. The dividend paid has not been included in the amount of Profit and Loss Account shown in the balance-sheet. ¶ The balance carried forward in June, 1896, was £10,936, from which a dividend of £4,728 was paid in December, 1896, on the preference shares, leaving £6,208 at credit of Profit and Loss Account. The operations of the half-year ended December, 1896, resulted in a loss of £4,390, which, deducted from the £6,208 already mentioned, leaves £1,812 to be carried to next half-year's account. || Twelve months' operations. \*\* The debit balance of Profit and Loss Account on the 30th June, 1896, including the debit balance brought forward from the previous year was £34,228, which has been carried to the Contingent Fund.

## No. 20.—Deposits in Banks of Issue, 1896-97.

**Preferential Capital** represents Fixed Deposits capitalised on and after the dates of reconstruction of the institutions. The holders of these deposits after a certain number of years become ordinary shareholders, but with one exception, the preference either as regards capital or dividends, ceases. (See Supplementary statement).

**Inscribed or Perpetual Stocks.**—Formerly the practice of issuing stocks was confined to one institution—the Union Bank of Australia (Limited); but, since 1893, the English, Scottish, and Australian Bank (Limited), the Australian Joint Stock Bank (Limited), and the Queensland National Bank (Limited), have strengthened the working capital by issuing Inscribed or Perpetual Stocks.

**Extended or Deferred Deposits.**—Under the terms of reconstruction, the eight reconstructed banks operating in New South Wales were empowered to gradually liquidate the Fixed Deposits by payments in instalments extending over a series of years. The Commercial Banking Company of Sydney (Limited) and the Bank of North Queensland (Limited) have released the whole of the extended fixed deposits long before the dates agreed upon, and some of the other institutions have prepaid part of their deposits.

**Bank Note Composition.**—Prior to the passing of the Bank Notes Act of 1893, the composition payable by the Banks of Issue under the Stamp Duties Act of 1880 was at the rate of 2 per cent. on the average value of notes in circulation, but under the provisions of the Act mentioned, the rate was increased to 2½ per cent. As the Bank Notes Act of 1893 came into force in November, 1895, the composition paid since that date was charged at the old rate of 2 per cent. The Queensland National Bank (Limited) has no note circulation in New South Wales.

**The Bills of Exchange Act** (51 Vic. No. 2) was passed in 1897. Under this measure the law relating to bills of exchange, cheques, and promissory notes was codified. The form and interpretation of these instruments are specified, and the Act comprehensively defines the legal position of the bank, the drawee or payee, the drawer or payer, and the transferee of the instrument, &c.

**Deposit Rate Reduced.**—From the 4th March, 1896, the rate of interest was reduced to 1½ and 3 per cent. per annum for deposits for 6 and 12 months respectively.

\* Total Assets.—Prior to 1893 it was the practice with some banks to include balances due from branches outside the Colony: the total assets and the "balances due from other banks" for 1892 and previous years must, therefore, be accepted with this qualification. † Including Queensland Government Treasury Notes.

NOTE.—Under the provisions of the Banking Act, 4 Vic. No. 13, as amended by 5 Vic. No. 21, the Banks of Issue are obliged to furnish quarterly sworn returns of transactions within New South Wales only according to the sub-headings given in the above Table. The figures are established on the weekly accounts and represent the average liabilities and assets for the quarter.

NOTE.—The Banks' Exchange Settlement, or Bankers' Pool, was established on the 18th January, 1894, in order to facilitate the settlement of exchange of notes, cheques, &c., between the 13 banks of issue transacting business in New South Wales. The "Pool" consists of £700,000 in gold, the contribution to which by each bank is regulated by the volume of the business transacted. The gold, which is placed in the hands of three Trustees, is deposited in safes in the vaults of three of the banks, and cannot be circulated or disturbed. No bank is permitted to allow its daily credit balance to fall below 25 per cent. of its fixed contribution to the £700,000.

### No. 25.—Liabilities and Assets of Registered Companies receiving Money on Deposit, September quarter, 1897.

**Companies furnishing Quarterly Returns of Local Assets and Liabilities.**—Since 1841 the Banks of Issue have been obliged to furnish quarterly returns of local Assets and Liabilities; but it was not till 1879, under an Act passed in that year, that other registered Companies receiving money on deposit in New South Wales were required to furnish quarterly statements similar to those of Banks of Issue.

The nineteen Companies which furnished quarterly statements, and which, with the exception of Goldsbrough, Mort, & Co. (Limited), are included with the 557 Companies shown on page 742, practically represent all the institutions which are dependent on outside capital, exclusive of the few established prior to 1879.

**Companies not furnishing Quarterly Returns of Local Assets and Liabilities.**—Companies formed prior to 1879, and receiving money on deposit, are not required to furnish quarterly statements of local Assets and Liabilities. The number of such, however, is very small. Registered Companies which do not receive money on deposit are not subject to the provisions of the Act which requires the publication of the Quarterly Returns.

\* Insurances outside New South Wales.—In cases where insurances cannot be effected in New South Wales, permission is granted by the Fire Underwriters' Association for the risks to be placed outside the Colony, provided that the proportion of the assessment due to the Fire Brigades Board be duly paid by the insured.

Return of Net Risks under Fire Brigades Act.—Under the 15th Clause of the Fire Brigades Act, 1884, the Insurance Companies holding risks within the proclaimed area under the Fire Brigades Board of Sydney are required to furnish annually to the Board the amount held at risk (within the proclaimed area) by each Company on the preceding 31st December, less the sums reinsured with other contributing Companies under the Act. The total subsidies for 1897 were £6,700 from 40 Companies and the Fire Underwriters' Association for risks held outside the Colony; the amount to be contributed by each Company towards the cost of maintenance for the year is established by the Board from the returns supplied by the Companies.

**Other Lines.**—In addition to the above there are several branch lines connected with the coal and other mines in the colony, but as regards length they are unimportant.

**Private Railways under Construction.**—During 1893 authority was obtained for the construction of two private railways, viz., Menindie to Broken Hill, in the Western district, and Rosehill to Dural (Simpson's), in the Parramatta district. The latter has been constructed as far as Pennant Hills Road, a distance of 3 miles 28 chains, but the line has not yet been opened for traffic. The total length of the line when completed will be 9 miles.

**Standards.**—The Weights and Measures Act (16 Vic. No. 34), which was passed in December, 1852, repealed the former Act (3 Wm. IV. No. 4). Under the provisions of the existing Act, the standard Imperial Weights and Measures Great Britain are declared to be the standards for New South Wales. The Act also provides that all articles sold by weight must be sold by Avoirdupois, except gold, silver, platinum, diamonds, or other precious stones, which are to be sold by Troy weight, and drugs, which, when sold by retail, may be sold by Apothecaries' weight.

**Inspectors.**—The Inspectors of Weights and Measures, other than those in the Metropolitan District, administer two Acts, viz., the Bakers' Act (6 Wm. IV. No. 1) and the Weights and Measures Act (16 Vic. No. 34). The Coal Delivery Act (16 Vic. No. 8) only applies within the Metropolitan District to a radius of 5 miles from Macquarie-place. In the country districts the inspectors are appointed by the local Magistrates, the persons selected being generally Sergeants of Police, who, however, are not subject to any control beyond the provisions of the Weights and Measures Act, and consequently their records are available as to material dealt with.

	£		£

.. Weighing Machines ..	85		
.. Weightbridges ..	22	Total Fees ..	£ 179

**Fees paid into Treasury.**—The fees for testing weights and measures are fixed by the Act, but for examining scales and testing weighing machines, weightbridges, and Troy weights the fees are fixed by the Minister for Justice. The amounts received in the Metropolitan area are paid into the Treasury, but those collected in the country are retained by the inspectors.

**Prosecutions.**—The prosecutions in the Metropolitan area during 1896 by the inspector numbered 47, of which 44 instituted under the Weights and Measures Act and 3 under the Bakers' Act. The total amount of fines and costs of proceedings during the year was £172.

**Coal Mines Regulation Act (60 Vic. No. 12).**—Under the provisions of clause 42 of this Act, the inspectors of weights and measures under Act 16 Vic. No. 34 must examine all weights, scales, balances, &c. used in coal mines, at least in every six months.

\* **Special Suspense Accounts.**—The "Centennial Park Account" (51 Vic. No 9), and the "General Post Office New Street Resumption Account" (53 Vic. No. 13), originally formed part of the Consolidated Revenue Fund. The former was opened in 1887 and placed in suspense during 1894; the latter was opened in 1890 and placed in suspense in 1892. The debit balances on the 30th June, 1897, were £224,372 and £469,263 respectively. Both of these amounts have been covered by advances from the Trust Funds.—See Table No. 20.

**The Public Account.**—The "Public Account," as defined by the Treasury, consists of the Consolidated Revenue Fund and the General Trust Funds (subject to the Audit Act). It must be mentioned, however, that the Audit Act recognizes only one "Public Account," whether the transactions are connected with Consolidated Revenue, Trust Funds, or Loans.

**The General Account.**—The "General Account" consists of the General Trust Funds (subject to the Audit Act), the Consolidated Revenue Fund, the two Special Suspense Accounts, the Special Trust Funds (not subject to the Audit Act), and the General Loan Account.

1870	32,059	.....	.....	.....	.....	Accumulated Surplus.  At the end of 1877 the "Accumulated Surplus" amounted to £2,351,074. The revenue for 1878 and 1879 was not sufficient to meet the expenditure, so that the balance at the close of 1879 was reduced to £1,341,619. The surpluses of 1881 and 1882, however, increased the fund to £3,888,753 at the end of the latter year. Between 1882 and 1885, considerable sums were spent out of the Accumulated Surplus, with the result that this fund became practically exhausted at the end of 1885. Until 1885 the Government had, therefore, a reserve fund to meet any revenue deficiency, but from that year no further assistance could be obtained from this source.

First Deficit.							
On the 31st December, 1885, the Consolidated Revenue Fund showed a credit balance of £2,900, but it was only a nominal credit, as heavy liabilities were outstanding of 1885 and previous years, and the payments on this account created a heavy deficit in the succeeding year, which was considerably increased by subsequent operations. To adjust the accounts to 31st December, 1886, authority was given, under an Act passed in 1889, to issue Treasury Bills. At the close of that year, Bills to the value of £1,907,100 were issued, and the balance was taken up in the succeeding year. The shortage in Revenue was eventually found to be £2,502,183. The Bills are being redeemed by annual payments of £150,000.							
1886	.....	.....	.....	1,286,581	1,286,581	Second Deficit.  During the period January, 1887, to June, 1895, a second deficit accumulated, and a further adjustment became imperative, especially as provision had been made under the "Audit Act Amendment Act of 1895" to keep the accounts on a cash basis from the 1st July, 1895. Accordingly, on the 23rd December, 1895, authority was obtained to issue £1,174,700 Bills to cover all deficiencies to 30th June, 1895. This amount was found to be £150,000 in excess of the sum required, and consequently Bills to that value were cancelled during 1896–97. The redemption date is fixed at 1901, but power is given to pay off annually at least £150,000 after the Bills of the first deficit have been extinguished.

† Year ended 30th June.

**Surplus for year 1896–97.**—According to the financial statement delivered on the 14th October, 1897, the surplus for the year ended 30th June, 1897, was £120,002. This amount differs from the credit balance on that date, which, as set down above, was £114,445. The difference is accounted for by the fact that accounts under the old system are still current, but when the final adjustments are made the balance shown in the public accounts will represent the actual accumulated surplus or deficiency on the last day of the financial year.

The apparent anomaly of a credit of £114,445 and a debit of £2,363,139 on the 30th June, 1897 is due to the adjustments of revenue by the issue of Treasury Bills.

**Increase or Decrease in Debt.**—The difference between the amounts outstanding at the close of each year, not, as a rule, represent the actual increase or decrease in the debt. Repayments of loans are generally effected in head of renewals, and in following out this practice, it is usually found necessary to float the redeeming loan before the due date of the maturing loan, hence the liability appears twice in the Debt statement till the bonds are retired.

**Bank of England as London Agent.**—Since 1883 all financial operations connected with the issue and of Stock have been conducted by the Bank of England. The Bank charges ½ per cent. per £100 Stock on all loans and in addition annually receives for the inscription and management of Stock (including the payment of the dividends), £500 per million for the first ten millions, £450 for the next five, and £400 per million for all subsequent.

**Bank of New South Wales as Local Agent.**—The Bank of New South Wales, since the middle of 1883, has transacted all the local business connected with the "Government Banking Account," and also acts as Financial Agent for the Colony in Victoria. The business carried on includes the payment of the half-yearly dividends on local Debentured Stock, and all Banking transactions connected with the Consolidated Revenue Fund, Trust Funds, and Gen Account. The Treasury, however, in local loan issues, directly conducts the operations connected with the issue of South Wales Funded Stock and Treasury Bills. During 1895-96 a current account was opened at the City Bank of Sydney, and during 1896-97 at the Commercial Banking Company of Sydney, Limited.

"Old Loans Account."—The £450,000 loan floated "Under various Acts" (commonly known as the "Tailings Loan") was floated during 1871 for the purpose of adjusting the amounts short and over raised under Act 17 Vic. No. 34, and all subsequent Acts to 34 Vic. No. 2. These loans constituted what is termed the "Old Loans Account," which formed part of the Consolidated Revenue Fund till 1891, when the account was finally closed by the balance at the end of that year (£182,326 Os. 4d.) being transferred to the "General Loan Account" under the provisions of the Loan Act 54 Vic. No. 33, as amended by Act 55 Vic. No. 35.

"General Loan Account."—From 1871 a new system of treating the proceeds of Loans was adopted. A "Separate Loan Fund" was established for each Loan floated on and after that date. The £374,900 Loan of 1871 (35 Vic. No. 5) was the first one dealt with under the new conditions. This practice was continued till 1879, when, under the authority of the "Loan Fund Amalgamation Act" passed in that year, the "Nine Separate Loan Funds" established during the period 1871-9, and all subsequent loans, were amalgamated into one "General Loan Account." The Act declares that no portion of the Amalgamated Funds shall be used for any other purpose than Loan Services.

**First Railway section opened.**—Railway construction in New South Wales was commenced in 1850, and the first length of line—Sydney to Parramatta—was opened on 25th September, 1855. A uniform gauge of 4 ft. 8½ in. has been adopted for the State Railway and Tramway systems.

**Tramways classed as Railways.**—The Camden-Campbelltown line, opened in March, 1882, and the Kogarah-Bondi line, opened in September, 1887, were transferred to Railways in 1888 and 1889 respectively; and from the mentioned dates the returns of these lines have been included with those of Railways.

\* DECREASE IN CAPITAL.—The decrease in capital shown in the City and Suburban Tramways is due to the transfer of rolling stock to some of the other lines, while in the case of the North Shore Cable line, the falling-off is due to the land taken for the St. Leonards Railway being transferred to the Railway Capital Account.

† Includes interest on cost of construction.

\*Letters.—Until the year 1894, when a separate return of registered letters for the whole Colony was compiled, the figures under this heading include registered letters.

†Registered Letters.—The figures given for 1892 and 1893 only represent those registered letters which have passed through the General Post Office, Sydney. Statistics were not collected in these years of the destination of the letters, neither were accounts kept of the business of other offices.

‡ Since 1st July, 1894.

§ Total number posted only.

|| Since 1st October, 1893.

**Registration Fee.**—With the exception of Returns under the Land and Income Tax Assessment Act, which are registered free, and Notices of Objection to the retention of names on the List of Voters issued under the Parliamentary Electorates and Elections Act, on which the fee is 2d., all classes of mail matter are charged 3d. for registration.

**Letter Cards.**—Letter cards, that is double cards, which are closed against inspection, may be transmitted within the Colony and to Queensland, British New Guinea, Victoria, South Australia, Western Australia, Tasmania, New Zealand, and Fiji at the rate of 1½d. each.

**Post Cards.**—Post cards impressed with 1d. stamp may be transmitted in New South Wales, or to Australasian Colonies, British New Guinea, and Fiji, and those with 1½d. stamp may be forwarded to other parts of the world.

**Packets and Book Parcels.**—Books, magazines, commercial and printed papers, and packets may be forwarded at a cheaper rate of postage than other articles. The definition and regulations are stated in the "Postal Guide."

**Parcels.**—The Parcels Post was inaugurated on 1st October, 1893, for inland and intercolonial transmission, the maximum weight being fixed at 3 lb. and 11 lb., according to mode of conveyance. The foreign system has been in force since 1st August, 1886.

**Unclaimed Letters, &c.**—Letters and Packets posted in New South Wales, addressed to places within the Colony, remain at the address awaiting delivery for one month; when posted in other Australasian Colonies they remain for a period of three months, and those posted in other Countries, six months. Newspapers are kept for one month.

**Prohibition of Delivery of Letters, &c.**—The Postmaster-General is empowered under the Postage Acts Amendment Act of 1893 (56 Vic. No. 31), to prohibit the delivery of all letters, &c., addressed to persons who, he has reasonable grounds to suppose, are engaged in receiving money for or in connection with horse-racing, lotteries, &c. The names and addresses of these persons are notified in the *Government Gazette*, and letters so addressed are re-directed to the senders. The falling off in registered letters during 1893 was largely due to this cause.

Hydrants.—Attached to the water-mains there are 1,715 screw-down Hydrants, and 17,743 ball Hydrants.

**Water Supply.**—During 1850 the City Corporation was empowered to construct water and sewerage works, and in accordance with such authority works for each service were carried out, but on a limited scale. The water supply and sewerage systems have been superseded by comprehensive ones for the whole Metropolitan area, and the works of the City Council, as well as several of the isolated systems in the suburbs, now form part of the respective general schemes. During 1867 a Royal Commission was appointed to investigate and report upon proposals for supplying water to the city and suburbs. Two years later the Commissioners submitted a report recommending the adoption of the "Upper Nepean scheme," which was accepted. The works are being carried out under authority of Act 43 Vic. No. 32, passed in 1890; the first contract was let in November, 1879, and in 1888 the works had so far advanced that the Government passed an Act transferring the control in May, 1888, to the Metropolitan Board of Water Supply and Sewerage. The 355·1 miles of water-mains chiefly constructed by the City Council were placed under the Board at the same date. The Board was established under Act 43 Vic. No. 32, as amended by 51 Vic. No. 23, and consists of seven members, three of whom are nominated by the Governor, two elected by the City Council, and two by the Suburban and Country Municipalities within the County of Cumberland, which are supplied with water.

**Proposed Reservoir in Centennial Park.**—During December, 1894, an Act was passed authorising the construction of a Reservoir in Centennial Park. It has a capacity of 17½ million gallons, and will be completed during the year 1898.

**The Nepean System.**—The source of the supply is the united waters of the Nepean, Cataract, and Cordeaux Rivers. The water is intercepted at a height of 437 feet above the level of the sea, and flows through a series of conduits to Prospect Reservoir, 40 miles from the farthest source of supply, thence to Potts' Hill Balance Reservoir. The water, after leaving this reservoir, passes through a screening-tank, from which it is conveyed by mains to the various reservoirs.

**Water Supply.**—During 1850 the City Corporation was empowered to construct water and sewerage works, and in accordance with such authority works for each service were carried out, but on a limited scale. The water supply and sewerage systems have been superseded by comprehensive ones for the whole Metropolitan area, and the works of the City Council, as well as several of the isolated systems in the suburbs, now form part of the respective general schemes. During 1867 a Royal Commission was appointed to investigate and report upon proposals for supplying water to the city and suburbs. Two years later the Commissioners submitted a report recommending the adoption of the "Upper Nepean scheme," which was accepted. The works are being carried out under authority of Act 43 Vic. No. 32, passed in 1890; the first contract was let in November, 1879, and in 1888 the works had so far advanced that the Government passed an Act transferring the control in May, 1888, to the Metropolitan Board of Water Supply and Sewerage. The 355·1 miles of water-mains chiefly constructed by the City Council were placed under the Board at the same date. The Board was established under Act 43 Vic. No. 32, as amended by 51 Vic. No. 23, and consists of seven members, three of whom are nominated by the Governor, two elected by the City Council, and two by the Suburban and Country Municipalities within the County of Cumberland, which are supplied with water.

**Proposed Reservoir in Centennial Park.**—During December, 1894, an Act was passed authorising the construction of a Reservoir in Centennial Park. It has a capacity of 17½ million gallons, and will be completed during the year 1898.

**The Nepean System.**—The source of the supply is the united waters of the Nepean, Cataract, and Cordeaux Rivers. The water is intercepted at a height of 437 feet above the level of the sea, and flows through a series of conduits to Prospect Reservoir, 40 miles from the farthest source of supply, thence to Potts' Hill Balance Reservoir. The water, after leaving this reservoir, passes through a screening-tank, from which it is conveyed by mains to the various reservoirs.

**Capital Cost.**—It will be seen from the above statement that the Metropolitan Board of Water Supply and Sewerage does not calculate interest on the sum of £377,382, representing expenditure by the City Council on water works taken over by the Board. The Royal Commission, appointed by the Government to inquire into the working of the Board, has recommended that the Government should, without delay, fix the amount of the capital debt on which the Board should provide interest. If the Board had debited its account with interest on the full amount of the capital cost, as shown in Table No. 6, the expenditure would, of course, have been correspondingly greater, and the deficiency disclosed in Table No. 4 would have been increased.

**Cost of Offices.**—The amount of the capital debt, 1895-6 and 1896-7, does not include £32,341, the proportion of the cost of offices chargeable to the Water Supply Branch, as the Board charged their working expenses with rent on their new offices.

(+) Surplus. (−) Deficiency.

\* The figures shown represent only the actual expenditure for maintenance. Under the new Act, which comes into operation as from 1st July, 1897, it is enacted that proper provision shall be made for the reconstruction of renewable works, setting aside a sum from each year's revenue to the credit of a sinking fund at the Treasury, from which fund the accounts expended from time to time for maintenance and renewals shall be drawn. Had provision been made for the sinking funds for permanent and renewable works, established under the Acts of 1892 and 1894, during the five years for which the figures are given above, the item for maintenance would have been represented by the instalment for each year, and the year's operations would have resulted in a greater deficiency than that shown. At the request of the Statistician, the Board have supplied the above amended statement of their accounts, instead of the ones previously supplied.

The Water Supply Works of the Lower Hunter were constructed by the Government under the provisions of the Hunter District Water Supply and Sewerage Act of 1880. The works in July, 1892, were transferred under Act 55 Vic. c. 27 to the Hunter District Water Supply and Sewerage Board. The Board consists of seven members—three of whom are nominated by the Government, one by the Municipal Council of Newcastle, one by the Councils of East and West Maitland and Morpeth, and two by the other municipalities within the proclaimed area. The Board's year closes on the 30th June.

**Capital Debt.**—Under the 14th section of Amending Act, No. 14, of 1897, the Board are required to levy such rates subject to a maximum of 1s. in the £ as shall be sufficient to provide for (a) interest on the capital debt at 3½ per cent. per annum, (b) management and working expenses, (c) the annual instalment to the sinking fund for the reconstruction of renewable works, and (d) the deficiency on the previous year's operations (if any). Under the 30th section of the Act, the Minister has to determine the capital indebtedness of the Board to the Government up to the 30th June, 1897, and thenceforward annually. These figures have not yet been gazetted. The figures shown above are estimated.

**Capital Cost.**—It will be seen from the above statement that the Metropolitan Board of Water Supply and Sewerage do not calculate interest on the sum of £103,431, representing expenditure by the Government on Sewerage Works taken by the Board. The Royal Commission appointed by the Government to inquire into the working of the Board has recommended that the Government should, without delay, fix the amount of the Capital Debt on which the Board should be interest. If the Board had debited its account with interest on the full amount of the Capital Cost, as shown in No. 15, its expenditure would, of course, have been correspondingly greater, and the deficiency disclosed in Table No. 15 would have been increased. See note to Table No. 5 in respect of cost of offices.

**Metropolitan Fire Brigade Board.**—The Board, established in 1884 under Act 47 Vic. No. 3, consists of members, viz., the chairman, appointed by the Government, and five elected members, one of whom is appointed by the Municipal Council of Sydney, one by the other Municipalities within the proclaimed area, two by the Fire Insurance Companies carrying on business in New South Wales, and one by the Volunteer Fire Companies. The elected members serve for two years, but are eligible for re-election. Towards the annual outlay the Government, the Municipalities, and the Fire Insurance Companies each contribute one-third. The Municipalities contribute *pro rata* to the assessed annual value of rateable property in their respective districts, and each of the Fire Insurance Companies proportionately to the amount of business done by them. Sydney Harbour is outside the jurisdiction of the Board.

**Ship Fires.**—For the purpose of dealing with ship fires the pilot steamer "Captain Cook" has been fitted out by the Marine Board of New South Wales with a steam-pump, having a capacity of 35,000 gallons per hour.

**Fire-alarm Telephones.**—Telephones connected with the fire stations are placed in fire-alarm boxes in all important localities of the city and suburbs. The telephonic system at the end of 1896 consisted of 77 telephones, telephone shutter-boards, and 191 telephone fire-alarms. The length of telephone and telephone fire-alarm wire erected is 135 miles. Most of the volunteer fire stations, theatres, music halls, &c., are also in direct communication with the Fire Brigade stations. The various police stations are also in communication through the Central Police Station, Sydney, with public offices, hotels, wharfs, business firms, and private houses that are connected with the General Post Office Exchange can transmit calls for fires at any hour of the day or night, and arrangements have been made for the watchmen employed by business houses to report to the head-quarters station several times every night.

**Inquests on Fires.**—Act 24 Vic. No. 10 provides that "when any property, real or personal, shall be destroyed or damaged by fire, the Coroner having or exercising jurisdiction at or in the place where such fire shall have happened, shall if he consider it a fit case for so doing, make an inquisition into the cause and origin of such fire." Jurors and witnesses are summoned, and the mode of procedure is the same as in inquests in cases of deaths. The Coroner can, if the jury find that any person has wilfully set fire to property, exercise the same authority as in the cases of persons charged with murder or manslaughter.

**Licenses for Public Vehicles.**—Prior to 1873 the regulation of street traffic was under the City Council. In that year an Act (36 Vic. No. 14) was passed, which transferred the control of the traffic to three Transit Commissioners, the number of whom was increased in 1886 to four by Act 50 Vic. No. 14. The Board consists of the Mayor of Sydney (Chairman), the Inspector-General of Police, a representative of the suburban municipalities, and the fourth is elected by the licensees coming under the Act. The two latter are annually elected.

## No. 32.—Water Rights Act.

The Water Rights Act vests all large natural supplies of water in the Crown, and establishes a system of licenses for works for water conservation, irrigation, and drainage. Before the passing of the Act such works on creeks and rivers constructed by private individuals were unprotected, and were liable to be destroyed by any person who considered that the existence of the work was opposed to his interests. Under the Water Rights Act questions as to the propriety of licensing works are decided after full inquiry, and when a license is granted for any work any interference with that work is illegal. The Act acknowledges the right of riparian owners to water for domestic and stock purposes and for the irrigation of gardens not exceeding five acres in extent. Since the Act came into operation over 400 applications for licenses have been received.

## No. 33.—Irrigation Trusts.

Irrigation Trusts have been established, under special Acts, at Balranald, Hay, and Wentworth. The Municipal Councils of these towns were constituted Trustees, the area made over to them in each case being the temporary Commons.

## BALRANALD IRRIGATION TRUST.

The provisions of the Act (56 Vic. No. 26), passed June, 1893, establishing this Trust, are almost identical with those of the other two Trusts. As in those cases, the land forming the Trust is a portion of the temporary Common. The Act limits the area any one person may lease to a maximum of 40 and a minimum of 5 acres, and no person under 18 years of age, nor a married woman, is allowed to hold a lease. Up to the end of 1893, 1,000 acres had been surveyed into lots of 5 to 40 acres, but, as the by-laws framed by the Trustees had not then received the sanction of the Minister, these lots had not been thrown open. During 1895, however, the Minister's approval was obtained, and several blocks have been taken up.

The Trustees being of opinion that it would be advisable for an irrigation scheme to be carried out at Balranald in a similar manner to that at Wentworth, have petitioned for the dissolution of the Trust. The Government have allowed consideration of the matter to stand over until the works at Wentworth are in operation. The works for the supply and distribution of water in the Wentworth Irrigation Trust being now almost complete, the question of the case of Balranald will be dealt with as soon as the land at Wentworth is thrown open for settlement.

## HAY IRRIGATION TRUST.

This Trust was established under Act 55 Vic. No. 25 (passed March, 1892), the provisions of which are practically the same as those of the Wentworth Irrigation Act. The land set apart forms part of the temporary Common, and comprises 12,847 acres. Any person (except Asiatic) can select and hold from 5 to 40 acres. The land was only thrown open in December, 1893, and up to 31st December, 1894, 62 holdings, embracing an area of 778 acres, had been applied for. The principal crops planted were barley, wheat, and oats. During 1895 an Act was passed excluding certain portions of the town and suburban lands of Hay from the irrigation area.

The Trust has erected a pumping plant with the assistance of a loan obtained from the Government. In order to complete the work of the Trust an engineer has been appointed by the Government. An amending Act has been passed the effect of which is to entirely remodel the Trust. This now consists of six members, three of whom belong to the Public Service. The irrigation area has been reduced to about 3,000 acres. The works are now practically complete and arrangements are being made for starting irrigation.

## WENTWORTH IRRIGATION TRUST.

This Trust was established under Act 54 Vic. No. 7 (passed September, 1890). The Trustees, being members of the Municipal Council of Wentworth, were empowered to tap the rivers Darling and Murray, and to construct dams and erect pumping machinery for irrigation purposes and, upon obtaining permission from the Governor-in-Council, to borrow money for these purposes. The area under the Trust consisted of 10,600 acres, and was a portion of the temporary Common already vested in the Municipal Council. The Trust was empowered to lease portions for any term not exceeding three years or, with the sanction of the Minister for Public Works, for any term not exceeding thirty years, and to supply water to persons outside as well as inside the irrigation area. An amount of £1,000 was spent in "Preliminary Expenses" during 1894, but up to the end of that year no portions had been leased by the Trust. Advantage has recently been taken of a clause in the Act, providing for the dissolution of the Trust. The Government, who have now all the powers conferred by the Statute, have almost completed the work contemplated by the Trust.

The necessary levels have been taken and plans prepared for the irrigation of about 1,500 acres; but in the first instance the area to be thrown open for irrigation settlement is about 516 acres. The remainder will be offered periodically as the demand requires. The lots range in area from 5 to 26 acres and every lot is being provided with at least one outlet for water from an adjacent distributary. The water will be supplied from the river Murray by means of a centrifugal pump which is already in position.

**Parish Roads Trusts.**—Prior to the passing of the Municipalities Act of 1858, Parish Roads Trusts were appointed to construct and maintain roads in certain localities, and the expenditure connected therewith was defrayed from the tolls collected and also grants from the Treasury. Eleven Roads Trusts were established, but with one exception, operations are confined to districts within the county of Cumberland.

On the 1st May, 1890, it was resolved by the Legislative Assembly, "That in the opinion of this House all Public Roads should be abolished." As tolls formed the chief item of Revenue, the operations of the Trusts then existing have gradually ceased, till in 1896, only the South Head Roads Trust was active. The expenditure during the year ended 30th June, 1897, was £3,320, the balance in hand being £1,424.

**District Councils.**—With the exception of the Maitland Council which has 44 miles of road under care, all the District Councils have ceased to exist, and, on account of the abolition of tolls in 1890, the Maitland Council has only been able to continue its operations as a Roads Trust, placed on the same footing as the Classified Roads Trusts under the Works Department.

The expenditure by the Trustees for the year 1896-97 was £728.

**Constitution Act.**—"An Act to confer a Constitution on New South Wales" (Imperial Act 18 and 19 Vic. ch. received the Royal Assent on 16th July, 1855, and was amended in 1884 (47 Vic. No. 5). The Legislative Council : Legislative Assembly correspond, as far as is practicable, with the two Houses of the Imperial Parliament.

**Legislative Council.**—No maximum number of members of the Legislative Council is fixed by the Constitution Act but the minimum number is set down at twenty-one. In December, 1896, the number of members was sixty-five. It receives no allowance for expenses, but are privileged to travel free over the State railways and tramways in the Colon. Although the appointment is for life, a member forfeits his seat by absence from two consecutive Sessions without leave by becoming bankrupt, and on account of other reasons, and he may voluntarily resign at any time.

**Legislative Assembly.**—The first Parliament under the Constitution Act met on 22nd May, 1856. The duration of Parliament was originally fixed at 5 years, but in 1874 an Act was passed establishing triennial Parliaments. In September 1889, an Act was assented to, allowing each member (not holding office as a Minister, Speaker, or Chairman of Committees) the sum of £300 per annum as a reimbursement of expenses incurred in the discharge of Parliamentary duties. Members travel free over the State railways and tramways in the Colony. Under the Parliamentary Electorates and Elections Act 1893, New South Wales has been divided into 125 electorates, each of which has one member to represent it in the Legislative Assembly.

**Presidents of Legislative Council and Speakers of Legislative Assembly.**—During the sixteen Parliaments there have been seven Presidents of the Legislative Council, and eight Members of the Legislative Assembly have filled the office of Speaker. The salaries voted for 1896-97 for these offices were £1,100 and £1,370 respectively.

**Chairmen of Committees.**—The Legislative Council and Legislative Assembly each elects one of its members Chairman of Committees, the salaries for 1896-97 being £470 and £740 respectively.

**Public Bills.**—*How initiated.*—The Constitution Act provides that all money Bills must be introduced in the Lower House. All other public Bills may be initiated in either Chamber on a motion for leave to bring in the Bill, or by a resolution reported from a Committee of the Whole, and adopted by the House.

**Royal Assent.**—The Governor acts as Viceroy to give the Royal Assent to, or to veto, Acts passed by the Legislature.

**Reserved Bills.**—There are eight classes of Bills which the Governor must reserve for the special consideration of the sovereign. Amongst these are Divorce Bills, Bills affecting the currency, and Bills conflicting with Imperial Treaty obligations.

**Enrolment.**—After receiving the Royal assent the Bill is numbered and dated. A new series of numbers commences at each secular year. The Act is then transmitted by the Clerk of Parliaments to the Registrar-General, and enrolled and recorded by him within ten days from the day on which the same shall become law, as provided by the Deeds Registration Act (7 Vic. No. 16).

**Private Bills** may be initiated in either Chamber. In these notices the general objects of the Bill must be stated. Before a private Bill can be read a first time, £25 must be paid to the Consolidated Revenue, and whenever the expenses necessary to such Bill exceed that amount, a further payment of £25 is required. The Bill having been read a first time, is referred to a Select Committee, who may hear counsel, and if the Bill is favourably reported upon, it proceeds with as in the case of a Public Bill.

\* The increase is due to the fact that there was not sufficient time in 1896 to recruit for new Volunteer Corps, the formation of which was authorised just prior to the close of the year.

**Imperial Troops.**—New South Wales was garrisoned by the British troops from the time of its foundation as a Colony in 1788 until the year 1870, when they were withdrawn. In the succeeding year, Act 34 Vic. No. 19 (Military and Naval Forces Regulation Act) was passed, having for its object the establishment of a local permanent force.

**First Volunteer Force.**—The first volunteer force was enrolled in 1854, under Act of Council 18 Vic. No. 8, which was repealed in 1867 by the "Volunteer Force Regulation Act," 31 Vic. No. 5. One of the clauses of this Act provided for the issue of orders for land to persons serving as volunteers, but this system was abandoned under Act 41 Vic. No. 15. The forces were again reorganised in the year last mentioned, and in 1885 an additional force of reserves was raised. The Rifle Reserve companies were disbanded at the end of 1892, but in 1895 the Civilian Rifle Clubs were formed into a reserve force.

**N.S.W. Military Commissions.**—Commissions in the Permanent Artillery may be obtained by officers of the Partially-paid and Volunteer Forces upon passing the requisite examination, and complying with certain conditions published from time to time in General Orders.

**Imperial Military Commissions.**—A Commission in the British Army is offered annually to a student of the Sydney University under regulations issued with Army Orders dated 1st January, 1892.

**Australasian Naval Force Agreement.**—This agreement provides for the equipping, manning, and maintaining, at the joint cost of the Imperial and Colonial Funds, a naval squadron, consisting of five cruisers and two torpedo gunboats. The officers and men are changed triennially, and the limits where they are to be employed in times of peace or war are fixed within the boundaries of the Australian Station. It is provided that no reduction of the Imperial squadron shall be made in consequence of the equipment of this naval force. The Australasian Colonies contribute 5 per cent. on the cost of these vessels—not to exceed £35,000 per annum—in addition to the actual charge for their maintenance. In the event of the loss of vessels the Imperial Government has to replace them. The agreement is for ten years, and only terminable then provided notice is given at the end of the eighth year. Afterwards the agreement can be terminated by giving two years' notice. The vessels will revert to the Imperial Government on the termination of the agreement. The New South Wales Government ratified the agreement under the Australasian Naval Force Act of 1887 (51 Vic. No. 22).

The Sydney Observatory was established in the year 1856, at the instance of Sir William Denison, Governor of New South Wales.

**Time Ball.**—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time, or 15 hours Greenwich Mean Time.

**Standard Time.**—By the "Standard Time Act of 1894" (58 Vic., No. 11), which came into operation on 1st February, 1895, the mean time of the 150th meridian of longitude east of Greenwich, England, was declared to be Standard Time throughout New South Wales, but on account of the conflicting interest in the Barrier District this Act was amended by Act 60 Vic. No. 4, assented to on 23rd July, 1896. The Standard Time Act of 1894 does not now apply within the Municipal District of Broken Hill, nor the Electorate of Sturt, in respect of certain sections of the Licensing Acts, Billiard and Bagatelle Licensing Act, Parliamentary Electorates and Elections Act. The mean time of the 135th meridian of longitude is in respect of the above enactments declared to be the standard time for the said Municipal and Electoral Districts.

**Latitude, &c., of Observatory.**—Latitude, 33° 51' 41.1" south; longitude, 151° 12' 42.15" east; magnetic variation, 8° 23' 51" east; altitude, 146 feet.

**Thermometers.**—The thermometers are exposed in a shed 11 feet square, of which the sides are 5 feet 6 inches high, and enclosed to within 18 inches of the ground with open lattice-work. The roof is conical, rises to 13 feet above the ground, and is covered with louver close enough to keep out rain. Repeated experiments have been made to determine the relation between temperature in this shed and that shown by a swing thermometer, both night and day, with the result that there is no difference. It is, therefore, assumed that the shade obtained is a satisfactory one.

**Rain-gauge.**—The rain-gauge is round, 8 inches in diameter, and with rim 15 inches above ground. The pluviometer results are from a gauge of the same size, 9 ft. above ground, and recording on the same paper as the anemometer. To similar gauges, placed on the ground 6 ft. apart, are always used; they differ very little, and not always the same way; the larger record is always taken.

NOTE.—The records of the pluviometer are affected by the force of the wind and some loss by friction in the recording; the total, therefore, is always less than that shown by the rain-gauge. The measured rainfall (including dew), as given by the rain-gauge, for 1896, was 42.401 inches, while the pluviometer only registered 38.624 inches.

Pluviometer.—This instrument (10 feet above ground) records on the same paper as the anemometer, thus giving at a glance wind, rain, and barometer changes.
